

# TOP BENEFITS OF GOING TO THE NAFSA REGION II CONFERENCE

Share this flyer with your manager, boss or colleagues to start the conversation about why you should attend the 2019 NAFSA Region II conference this year.

**October 14 – 18 in Cheyenne, Wyoming**

- Networking at the NAFSA regional conference can be more personal since it is smaller than the national conference.
- Attendees have the opportunity to connect face-to-face with government agencies.
- The Region II conference is the perfect time to connect with potential partnerships in person.
- The regional conference can be a more cost effective way to have a professional experience. Attendees have access to pre-conference workshops and an array of conference sessions and experiences, but may save money on travel.
- Since this is a smaller conference, attendees can more intimately build relationships and strategize with external partners.
- Region II attendees feel invigorated meeting and communicating with other colleagues with similar passions and positions.
- Dozens of countries are represented at the NAFSA Region II conference, which can provide a unique opportunity to make global connections with those you would not normally meet in person.
